

Student Attendance in BRS and LMS

3-16-20

Parents / Guardians,

We have Google Forms setup so that the students in BRS & LMS can check in each morning for attendance purposes. This needs to be done under each student's Lumberton chromebook and google login, as the form automatically captures both the student account name and time.

We adjusted the chromebook settings so that these forms open automatically when the student logs in each morning. LMS students should be able to submit this form without any assistance. BRS students might need parent / guardian assistance the first couple of times that they do it.

All BRS and LMS students have used chromebooks on a daily basis, so they should all be comfortable with the technology.

Thanks for your patience and support as we work through remote learning together.

Thanks,

LMS Staff, BRS Staff and the Technology Department
